

**ConVal Community Forum #3**  
**Thursday, May 12, 2022 7:00 PM to 9:00 PM**  
**Lucy Hurlin Theater – ConVal High School and live stream**

**Early presentation preview and questions**

Presentations are a great one way chance for communication. Open and Transparent Question and Answer (Q/A) sessions are one of the most productive ways to ensure a two way engagement of our ConVal Community and school district School Board/Administration.

Our audiences, being both in-person and on-line, present some interesting challenges and opportunities. In our prior Community Forums we provided for Q/A sessions after each presentation with a last Q/A open session at the end. Each Q/A sessions is in two segments. The first being for the in-person audience and the second being for our on-line audience. This has worked well and we are not changing this process.

While leaving the above as it is we are enhancing the on-line question portion of the process. We are providing you an early short preview of each presentation. With the preview giving you a synopsis of the presentation we are also opening up the email communication early. That way you can submit questions early prior to the forum and concentrate on the full presentation as it takes place. Your early questions will be answered along with questions submitted for the appropriate on-line section.

Attached to this note are the previews for each of the three presentations.

THANK YOU for your participation in the third ConVal Community Forum

**Email address to submit remote questions**

To send in a question via email please use the following email address [Forum@conval.edu](mailto:Forum@conval.edu)

**Link for live stream on Thursday, May 12 7-9 PM.**

To access this **YouTube** feed please click on this link [ConVal Events](#) or type in this link <https://www.youtube.com/c/ConValEvents> then select the “**2022 May 12 Community Forum**” video from the list of available videos.

**. Previews –**

**.Learning recovery – plans, progress, challenges, summer program - Preview**

The Learning Recovery Presentation will review the Evidence-based Approaches to Learning Recovery.

1. Provide a supportive environment.
2. Focus on acceleration.
3. Expand learning time.
4. Provide high-intensity tutoring.

We will highlight the actions outlined in the Recovery Plan for each approach and what these actions look like in schools.

Additionally, we will share how we are progressing with each step.

We will Wrap-up by emphasizing how this work is also a layered approach. Summarize how each of the things covered in the presentation falls into a specific layer and how those layers work together.

**. Student Behavior, Positive Supports and policy**

There were several changes in policy related to student behavior as a result of changes in state law. This presentation will review how the policy has changed related to students' behaviors. Additionally, time will be spent reviewing the graduated response to student behavior.

**.Preschool**

The preschool presentation for the community forum will provide an overall explanation of the process that the school district followed in determining the preschool expansion. An overview of the advertising and outreach as well as discussion of the sliding fee scale, tuition costs, locations and transportation will also be discussed.
