**3. Discussion / Review of Draft**

The Introduction talks about the schools globally. It shares where we are located geographically. In addition, it shares information about the development process of the Strategic Process. Graphics of District Data will follow e.g. facts on students, staff, and other data points. Student achievement data will follow including SAT, NWEA, NHSAS, and AIMSweb data as well. The data will be explained.

A section on how ConVal measures success will be part of this section. This would include measures on student growth, access rates to education and other opportunities.

The foundational elements of the district will follow e.g. Mission, Vision, Core Beliefs.

Priority areas will be gone into next by focus area and related objectives.

Alignment with the framework will follow.

Supporting metrics are those that would be used to also support the district measuring whether it is anticipated that the goal will be met.

Kimberly suggested that the Board's work on June 23rd focus on the ideas and detail. This will be the work of the district for the next five years.
